REPORT ON "ONE-DAY INDUSTRIAL VISIT"

Date:07/03/2019

Venue: Go Cheese Factory

Objective: To learn the production process of cheese from milk diary to cheese factory.

One day industrial visit was organised on 7th March,2019 by the BMS & BBI Department. Co-ordinator Prof. Ms. SmitaChawak, for BMS &BBI Department students under the guidance of Prof. Pranjalkarkhanis, Prof. Sophy Mathew, Prof. Deepa and Prof. Sharmila Karve industrial visit to GO CHEESE FACTORY at Pune, (Manchar amidst Maharashtra's western hills and parag milk diary/food.)

In month of march, we got opportunity of visiting GO CHEESE FACTORY, a good 2hour drive from pune operated from manchar amidst Maharashtra's western hills. This is home diarym farm and cheese factory owned by the one of the pioneers of dairy products in India, Parag milk foods. The brand like Gowardhan, pride of cows and Go Cheese.

The itinerary included to visit the home-grown dairy farm, cheese factory and understand behind the scenes of the manufacturing of the delicious milk products. We started with the Bhagyalaxmi Dairy Farm visit owned by the company where around 3500 and more cows from their birth to handling over to farmers (once their milk production reduces) including sanitation, nutrition, and survival. Thing which intrigued me was the automation at the farm to reduce contamination and avoid spread of communicable ailments. Even the rotary belt used to milch cows is fully automated and at a time can milch up to 35cows. We also tasted the fresh milk that gets packaged in bottles of pride of cows to be delivered at various

locations across and has been recognised as the best packaged milk. Now was the time for cheese factory visit. Started with the dressing for the tour, we were given briefing of the various types of cheese produced and the uses followed by the showcase of various procedures of the manufacturing and packaging.

Most of the process is same except for the time required for ripening of the cheese for different kinds. Mozzarella takes 2-10 days to ripe with extreme cold temperature, cheddar might take quarter to half an year. Post the visit, we were offered the milk and cheese manufactured at the factory. There were varieties of pizza, different flavours, cheese cubes, nachos, cream, etc. made with milk.

So, the amazing experience came to an interesting interactive session with the factory team followed by cheese tasting session. And we did get enough time to "SAY CHEESE".

Report of Session on Vermiculture

Nature Club of our College organised an activity of practical explanation of Vermiculture theory on 5th March, 2020.

All the students gathered in front of gate, inside the College Campus on 5th March, 2020 at 12:00 noon.

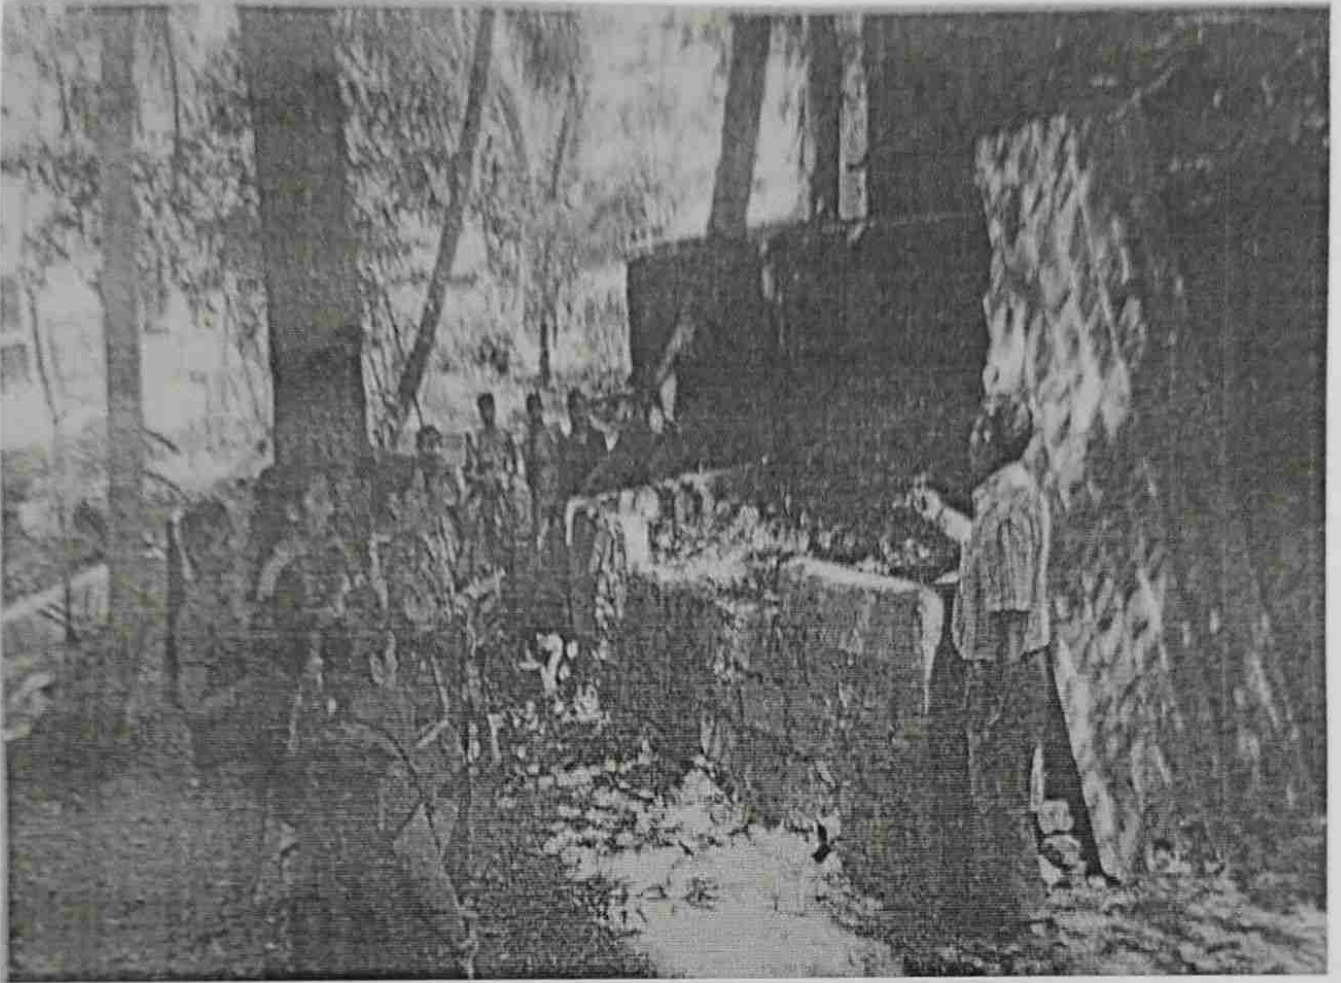

Nature Club Chairperson Principal Dr.Vasant Pandit Mali took the students near Vermicultured Pit. He explained in detail about how Vermiculture Pit is formed. Pit shape and size, then he explained about ingredients that has to be added in the Pit to develop Verm. He explained in detail Vermiculture Theory, Scientific method of making Compost, by using Earth Worm.

Also he showed compost Pit which is made in College. Students asked many doubts on Vermiculture and compost Pit. Principal Dr.Vasant Pandit Mali resolved all the doubts of the students.

Session was very much useful giving depth knowledge to the students regarding Vermiculture.
