**STUDENT FEEDBACK ANALYSIS**

**DESIGN AND IMPLEMENTATION OF SYLLABUS**

**INTRODUCTION:**

The syllabus provides details about the course/subject coverage, duration and marking scheme. What a student learns today forms a base for the future. It is thus very important that the syllabus be framed so that it will prepare the student for the outside world. Further the execution of the syllabus – methods and totality, will impact the students understanding of the subject. Hence it is absolutely necessary to obtain the students' view on the same.

**DATA COLLECTION:**

A google form was devised to study the students' point of view on the design and implementation of the syllabus. The link for same was sent to the students in the WhatsApp group. Representation is available from each class.

### **Suggestions/Comments:**

Some suggestions made by few students were as follows:

Syllabus must include current affairs, be practical and not lengthy.

The teachers must be more qualified, prepare before the lectures, complete syllabus on time and make use of technology when delivering a lecture.

Students also asked for wi-fi/internet service for studying and projects.

Comments by students:

Teaching style of all teachers was amazing and that they are the best.

Most students, were satisfied with the syllabus content and also with the teachers' methods of teaching.

### **ANALYSIS:**

Around 90% students feel that the syllabus has been wisely designed, helped develop personality and skills, not outdated and allotment of lectures is in proportion but around 58% felt it was lengthy or impractical.

90% said that teachers had completed 70-100 % of the syllabus. 95% were satisfied with the teachers' preparedness, timely completion, recommendations for books/journals and informed that the syllabus details were provided at the beginning of the semester.

85% said that University made regular changes in syllabus.

**Action Taken:**

The syllabus is designed by the University of Mumbai and the college being affiliated to it follows the same. The student's suggestions are communicated to the BOS during meetings for syllabus discussions/suggestions.

Teachers were suggested to include practical examples to enable the students to understand the subject better and to make use of ICT tools in their regular lectures. New Teachers were asked to prepare for lectures beforehand and ensure timely completion and full coverage of syllabus.

Computer lab is available and students have always been making use of the same for study and project work.

It was suggested to the library to buy books on current affairs.
