REPORT-ON GST

Sadhubella Education Society's J.W. Sadhubella Girls College, Commerce Department in association with IQAC organized workshop on GST on 2nd April, 2018. The main aim of conducting this work shop was to create general awareness regarding GST (Goods & Service Tax). On this occasion college invited CA Mukesh Haseja as resource person. Ms. Hitika Makhijani welcome our speaker and give brief information about his achievements. Then Our Principal Dr. Vasant Mali felicitated to the resource person.

Topics covered on GST are as follows:

Our speaker CA Mukesh Haseja stated in his speech that "GST aims at to replace all indirect levied on goods and services by the Indian Central and State Governments. GST would subsume with a single comprehensive tax, bringing it all under a single umbrella, eliminating the adverse effects of taxes on the production and the distribution prices of goods and services. Imposing several taxes on goods and services can lead to high cost and inefficient tax structure which can subject to shirking and revenue disclosures. The need for GST in Indian Taxation System will add value at each stage and will set off the rates both at state and at central level. Introducing GST, will increase the efficiency of taxation, improves the economic growth and it will bring whole nation to one national market. Our present taxation system is very complex and very confusing, corruption chance is there, which leads to distrust of government, there are hidden tax for exports, whereas no charge applicable on Importing of Goods/Services from one state to another. Just to overcome these issues, Rajya Sabha introduced GST bill, which will bring transparency to taxation and consumer will get to know how much tax amount they are paying to government for sale/ purchase/ manufacturing.

Tax Structure will be Simple: – At present, there are huge number of taxes that has to pay by consumers, with GST it will single tax to pay, which is much easier to understand. For businesses, accounting complexities will reduce and results less paperwork, which will save both time and money.

Tax revenue will increase: Simple tax structure will bring more tax payers and in return it will be revenue for government.

Boost to exports: If Indian market will be competitive in pricing, then more and more foreign players will try to enter the market, which results in more numbers of exporters and benefits to Indian Market.

At the end of the session Asst. Prof. Ms. Hitika Makhijani delivered vote of thanks. There were 77 participants attended this workshop.
