### **Action Taken Report:**

The academic year 2020-21 was very challenging for the education sector. In the COVID-19 pandemic situation, the Principal has taken initiative to complete syllabus within time by using various tools like ZOOM, Google meet, etc. which the teachers used for online teaching. The teachers embraced the new mode of teaching and completed the syllabus effectively.

The syllabus is designed by the University of Mumbai and as the college is affiliated with the same, its only role is the implementation of the syllabus. They were asked to ensure the timely completion of the syllabus. It was suggested that all teaching staff should themselves refer to books and journals for self-development and recommend the same to students for regular and advanced studies. The library could take suggestions from students as well, regarding books and journals to be purchased for the library.
